BIOGRAPHY

Mason Brewer is a Nashville based, country rock, singer, songwriter, and performing artist — the trifecta. In 2023, Mason decided to take his life-long dream and move it to the Country music capital of the world - Nashville.

Mason has currently recorded his first debut album in the historically famous OmniSound Studios, where many hit records have been produced. The music on Mason's first album, *Running Wild*, is upbeat, timeless and entertaining. It was created with the live performance setting in mind. Mason is ready to hear his music on the radio and is ready to get on stage and see his fans clapping, feet tapping and heads bobbing to the songs.

"Everything's Right", is Mason's second single from his debut album "Everything's Right" is written from the perspective of a positive reality that no matter how messed up the world around us seems at times, we can still Love, Live, Dream, and Believe that truth is still true and good will always win
